DESTRUCTIVE FIRE AT HUNTER'S POINT. About 4 o'clock yesterday afternoon the stable of G. L. Kelty & Co.'s furniture factory at Eastave. and Seventh-st., Hunter's Point, L. I., was discov ered to be on fire. The flames rapidly spread to the fac-tory and neighboring workshops, which were within an ur consumed, and the entire block, except the walls of a new brick house not yet completed, was left in ruins. The furniture factory, a frame building, 125x40 feet in size and three stories high, had just been erected at a cost of \$10,500. There were about 70 persons employed in the establishment at the time the fire occurred, and the establishment at the time the fire occurred, and several narrowly escaped death in their endeavors to leave the burning building. A number of those employed on the third floor were severely burned. There was from \$5,000 to \$12,000 worth of stock and material in the factory, which was destroyed, and the losses of Messrs. Kelty will probably reach \$25,000. The workshop of Smith and Brioray, stair builders, in Judson-ave., rear of Messrs. Kelty's building, and J. H. Petty's carpenter thep adjoining, were also burned, with their contents; oss about \$5,000; insured. There was from \$6,000 to \$,000 insurance upon the furniture factory.

THE MANHATTAN MARKET. Paul J. Amour, President of the Manhattan Market, denies that it is the intention of the Company to dispose of the building for railroad purposes, and says that he has received no official knowledge that Mr. Vanderbilt desires to purchase it. He also states that it is well adapted for market purposes, and that the project has been successful thus far. The information in regard to the proposed purchase was derived from a prominent Hudson River Railroad official, and the opinions concerning the unfortunate location of the market were ob-tained from a well-known public market official. The Sec-retary of the Company states that a short time ago some of the railroad officials called and inspected the market, and admits that they may desire to purchase it, but denies that any official proposition has yet been made. The officers of the Company claim that the farmers of Long Island and New-Jersey are deeply in-terested in the success of the market, and have pleaged themselves to supply it with produce. They hold that the property is desirable, and deem the situation most fortunate. cerning the unfortunate location of the market were ob

Ar-rived at this city, the boat was towed to Pier No. 7, East River, where the quarrel was renewed between the two pen last night. As Lent was returning to the boat after a visit to some friends in the city, he was told that Smith had been abusing him during his absence. On reaching had been abusing him during his absence. On reaching the pier Lent called Smith from the beat, and soid to him: "What is the use, Smith, of this continual quarreling; if you think you can whip me, pitch right in." Smith answered: "Why don't you strike me if you want to fight!" Lent at once accepted the challenge, and struck Smith on the face. Smith, who had been holding his right hand within his coat, drew a knife and stabbed Lent in the back, inflicting a wound which pierced the abdominal cavity. POLITICAL ASSESSMENTS AGAIN-CAMERON AND HIS RETINUE ENRAGED-MAINE AND MAS-SACHUSETTS POLITICS. IBY TELEGRAPH TO THE TRIBUNE.

WASHINGTON, Friday, Aug. 30, 1872. In the face of the profession by the members of the Administration and its supporters in Congress that no assessments are made upon employés of the Civil Service for political purposes, and in flagrant violation of the much-talkedof-Civil Service rules lately framed by the George W. Curtis Commission, orders for the strict enforcement of which were issued by the Administration the employés of the several departments here have been called upon to contribute funds for which a printed re-ceipt like the following is returned, with the name of the contributor, date, and amount filled in by the Col-

To refuse absolutely or even to decline after explana tion that he cannot afford to give anything is sufficient to cause the decapitation of a clerk. The loyalty of a civil employé is measured by the extent of work he will do and the amount of money he will contribute from his menger salary to the cause of Radicalism. Yesterday and to-day a number of the above receipts were given in the various departments, and to-morrow being pay day it is fair to presume that those who have not ye received one, and those who are believed to be able to subscribe more, will be presented with fae-similes of this receipt filled out to suit the loyal contributor.

It will be remembered that the President was censured comewhat roundly by Gen. Logan and other Grant Congressmen for Funning off to Long Branch the day after the adjournment of the last session of Congress and breaking some important engagements he had made with Logan, Senator Wilson, and others. A similar case of severe disappointment and consequent rage occurred at the White House to-day, the victim in this case also being a Grapt Senator. It was announced in some of the public journals that the President would remain here until Saturday, and as Senator Cameron had some im mitil Saturday, and as Schatof Cameron had some important political business to transact he came here late last night intending to see the President this morning. He was accompanied by several companions, namely, John Lemon, ex-Chief of the Detective Force, and now a Cameron member of the Legislature; George Handy Smith, ex-detective, and now a Cameron member of the Legislature; Charles A. Porter, a notorious member of the Legislature; Charles A. Porter, a notorious member of the Legislature; Wim. Elinott, the Cameron Speaker of the Pennsylvania House of Representatives; Gen. Bingham, Postmaster of the city, and Charles O'Nolil, ex-M. C. of the 11d District, After a dainty breakfast at the best holel they drove to the White House in carriages, only to be informed at the threshold in somewhat hackneyed phrase by one of the President's brothers-in-inw, "Gen. Grant has come to Long Branch." The indignation of the party was only equaled by Logan's rage in June last. They cursed Grant and carsed Long Branch. Their mission here was to induce the President to make certain changes in Federal offices in Pennsylvania where the incumbent's loyalty to Cameron was suspected, and where it was feared they would hurt Hartrant and endanger the party in November. They also, particularly o'Nelli, wanted an order to employ additional help in the havy-yard and arsenda to sa to increase the ring vote in October. The visitors said that with proper work, (that is, filling the mayy-yard and colonizing illegal voters). Philadelpina can be carried for Hartrant by twelve thousand maganty, and for Grant by diffeen thousand. Cameron theseff declared that he had no doubt Curtin would go for Greeley, and then proceeded to abuse and blackgosid him tor it. A portion of portant political business to transact he came here late

and trainsfor several hours.

BEWARE — Charges have been preferred against First ceeded to abuse and blackgoard him tor it. A portion of

the party returned to Philadelphia to-day in a very surly mood.

The effect which Senator Trumbull's speeches are having in Maine has seriously alarmed the Grant party in that State, who have sent here to request that some Cabinct officer might be sent up to reassure the people. As the Chorpenning matter appeared to be a tender subject in Maine as well as with Attorney-General Creswell, that officer has been detailed to go to Maine and explain matters to the people.

A well-informed politician of the Xth Massachuseets District (Gov. Washbarne, ald district) writes that the

FOREIGN NOTES. The République Française, Gambetta's organ, announces that for the present it relinquishes the agita-tion in favor of a dissolution of the Assembly. The Opposition papers taunt Gambetta with fearing to hold the reins of government—a senseless charge against one who was the real head of the men of the 4th of Septem-ber, and who ruled France so well (all things considered) during those terrible months.

MA telegram to the American Press Association, yesterday, stated that Mr. Dawson, the well-known geographer, has returned from Zanzibar. He reports geographer, has returned from with Dr. Livingstone, having been in communication with Dr. Livingstone, and states that the latter does not regard the Geographical Society as wholly friendly. He expresses himself as dissatisfied with its refusal to accept certain of his statements regarding the Nile question, which he claims have been the fruit of actual and laborrous investigation.

A telegram of the American Press Associa tion announces that the trial of Marshal Bazaine con tinues to be conducted with closed doors; but there is good authority for the statement that the evidence thus for submitted points strongly to the existence of a trait-orous correspondence between Bazane and the Ger-mans prior to the surrender of Metz. This report is earnestly denied by the friends of Bazane and the Em-pire, but is generally credited, and causes intense feel-ing against the accused. The trail will be concluded during the present week, when the proceedings will be under orbits.

Report of Judges upon GILT and ERONZE CHANDELIERS, GLASS CHANDELIERS, and BRONZES, exhibited by RITCHELL,

CHANDELIERS, and BRUNDED,
VANCE & Co.:

"We fully agree that the Bronce Fixtures are superior in Artistic
Design, Workmanship, and Finish to any made in this country and
probably in the world. The Bronze, especially the large pieces which
are copied from the French, are the best productions of the country.
The Glass Chandeliers are equal if not superior to the celebrated Ouler
manufacture (English), which have been hereafore acknowledged the
best in the world. The Glass is of unusual whiteness. They rank Al.
